PROFESSIONAL SUMMARY

BOOKING AUTOMATION, 03/2022 - 08/2025

Brigade Group

- Developed a web-based flat booking automation platform for Brigade.
- Enabled online flat bookings with integrated approval workflow for sales teams.
- Integrated signed copies to customers using Signeasy, enhancing documentation efficiency.
- Reduced manual processing time, improving operational transparency.

MALL DIGITAL PLATFORM, 02/2025 - 06/2025

Giffland Malls

- Led development of a centralized system to onboard and manage retail shops under specific licensees.
- Integrated recurring rent invoicing using a dynamic PDF generator.
- Designed and implemented a **double-entry accounting logic** for precise billing and financial tracking.

WORK EXPERIENCE

Apto.ai (formerly codeninja.ai)

UI/UX & ReactJS Developer

2020 – Present

- Designed end-to-end data models, user flows, and architecture in a no-code/low-code environment.

- Built role-based access control (RBAC), workflows, and automation modules for complex business logic.
- Integrated API layers and schema-driven modules for real-time user interaction and system scalability.
- Delivered UI integration and responsive component design aligned with backend modeling.
